Modesto City Schools high school students will be provided with an HP x360 computer to use in class and at home for school related work. As a part of Modesto City Schools Future Ready initiative, students will have the opportunity to access District adopted digital content, as well as other supplemental content for all subjects.

While our intent is to make computer access available to further the delivery of English Language Arts content and other content areas, students may find ways to access inappropriate material as well. Ultimately, parents and guardians are responsible for setting and conveying the standards that their children should follow when using media and information sources. \_\_\_\_\_ (parent/guardian initial)

## Conclusion

The Internet is a powerful learning tool, but it should not be used indiscriminately or without supervision. While your child is at school, our staff members make every effort to assure this resource is used appropriately. As parents/guardians, it is your responsibility to monitor this resource at home, not unlike the manner in which you monitor the use of TV, video games, or the telephone. It is not advisable for children to engage in long hours of unsupervised time on-line. After reading the Future Ready Handbook [<link>](#) with your child, please sign this form and return it to your child's school **on your scheduled SPEAR date, or to the main office no later than Monday, August 14, 2017.**
